An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The Abstract has been amended as follows:

A drop-away arrow rest having an arrow support arm that drops in a straight, non-pivotal and non-rotational path. The arrow rest ~~that~~ has an arrow support arm that lifts the arrow from a first, relaxed, position to a second, actuated, position when the archer draws the bowstring. Upon release of the bowstring, the arrow support arm drops, with vertical, non-rotational and non-pivotal movement, in a straight line, to return to its relaxed state. Actuation and release of the arrow support arm is accomplished by an attachment to the bowstring, such as a cord, and by a biasing ~~means~~ spring. The arrow rest includes various ~~adjustment means~~ adjustments that allow lateral and/or horizontal positioning of the arrow in relation to the bow handle.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose an arrow rest

including an arrow support arm movable from a relaxed position to an actuated position in a non-pivotal, non-rotational path of motion; and an actuation system connecting the arrow support arm to the bowstring for moving the arm between the relaxed position and the actuated position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
